Anesoft

Anesthesia & Critical Care Software
1 Montpellier   Laguna Niguel, CA 92677   USA

Dear Anesoft Customer,

Thank you for purchasing the **Anesoft ACLS Simulator 2016** package – single license. We hope you enjoy the simulated cases – all 100% consistent with AHA 2015 guidelines. This version of the software runs in any modern browser on PC or Macintosh.

Single License Installation Instructions for Windows and Macintosh:

1. If you are installing from a CD, copy the entire ACLS Sim 2016 folder from the CD to your desktop.

2. If you are installing from the download, SAVE the download file acls2016.zip to your desktop. Close all applications then right-click the acls2016.zip icon on your desktop. Under the Zip options select 'Extract to folder \Desktop\acls2016'.

3. After copying from the CD or unzipping the downloaded zip file, open the ACLS Sim 2016 folder and double-click the file index.html to launch the ACLS Simulator in your default browser.

4. If you wish, you can create a shortcut to the ACLS Simulator application (index.html) using the icon file acls_icon.ico for Windows or the graphics file acls_icon.png for Macintosh.

The best way to learn to use the ACLS Simulator is to run Case 1 which includes very detailed instructions, one step at a time to manage the first patient. Select Case Help > What Now? repeatedly during the simulation. The What Now help will walk you through the entire case.

This program was planned and produced in accordance with ACCME essentials. You can earn AMA PRA Category 2 credits with ACLS Simulator 2012. Each physician should claim only those hours that he/she actually spent in the educational activity. Typically up to 8 credits are claimed for this activity (one half credit per case). Please email a request to jill@anesoft.com if you would like us to send you a CME certificate.

Please email us at jill@anesoft.com if you have any questions, problems or comments.

Best regards,
Jill, Anesoft Customer Service
